AURAL FORCEPS

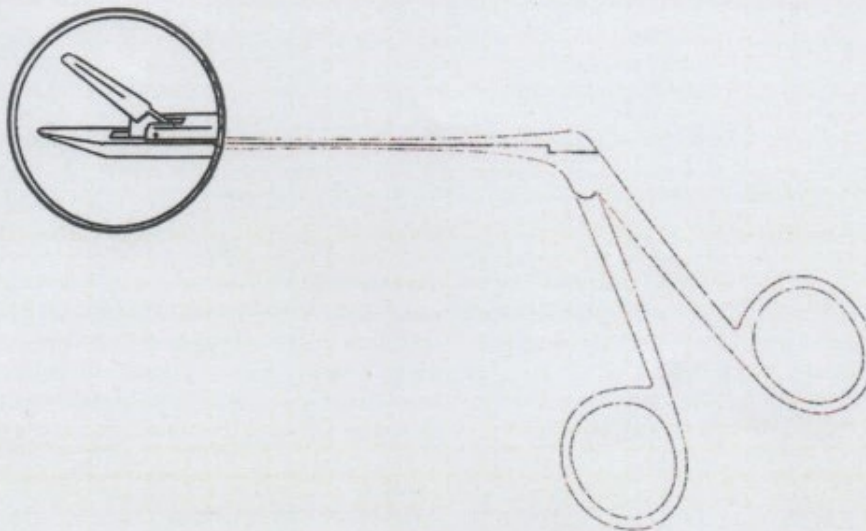

Hartman Very Fine Vertical Action

Very Fine Straight Serrated Jaw Forceps 4mm	001
Very Fine Curved Left Serrated Jaw Forceps 4mm	002
Very Fine Curved Right Serrated Jaw Forceps 4mm	003
Very Fine Straight Serrated Jaw Forceps 8mm	004

Hartman Very Fine Horizontal Action

Very Fine Opening Left Serrated Jaw Forceps 4mm	005
Very Fine Opening Right Serrated Jaw Forceps 4mm	006
Very Fine Opening Left CVD Up Serrated Jaw Forceps 4mm	007
Very Fine Opening Right CVD Up Serrated Jaw Forceps 4mm	008
Very Fine Opening Left CVD Down Serrated Jaw Forceps 4mm	009
Very Fine Opening Right CVD Down Serrated Jaw Forceps 4mm	010
Very Fine Opening Left Serrated Jaw Forceps 8mm	011
Very Fine Opening Right Serrated Jaw Forceps 8mm	012

We use only the finest materials available, quality certified medical grade stainless steel and titanium, conforming to British Standard specification. Instruments are completed in satin, polished or ebony finish, which provides a non-reflective matt finish. All our instruments are thoroughly checked before delivery, to ensure they are free from defects in workmanship and material.

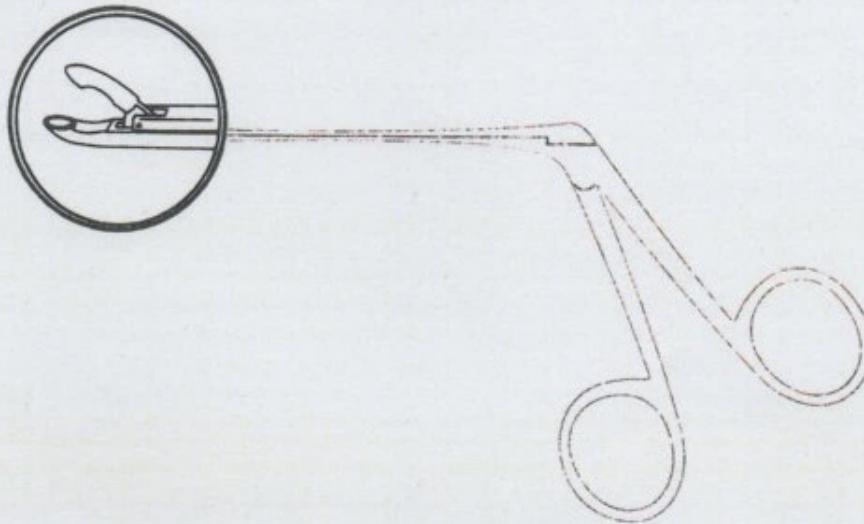

Cawthorne Very Fine Vertical Action

Very Fine Straight Smooth Jaw Forceps 4mm	013
Very Fine Curved Left Smooth Jaw Forceps 4mm	014
Very Fine Curved Right Smooth Jaw Forceps 4mm	015

Cawthorne Very Fine Horizontal Action

Very Fine Opening Left Smooth Jaw Forceps 4mm	016
Very Fine Opening Right Smooth Jaw Forceps 4mm	017
Very Fine Opening Left CVD Up Smooth Jaw Forceps 4mm	018
Very Fine Opening Right CVD Up Smooth Jaw Forceps 4mm	019
Very Fine Opening Left CVD Down Smooth Jaw Forceps 4mm	020
Very Fine Opening Right CVD Down Smooth Jaw Forceps 4mm	021

We use only the finest materials available, quality certified medical grade stainless steel and titanium, conforming to British Standard specification. Instruments are completed in satin, polished or ebony finish, which provides a non-reflective matt finish. All our instruments are thoroughly checked before delivery, to ensure they are free from defects in workmanship and material.

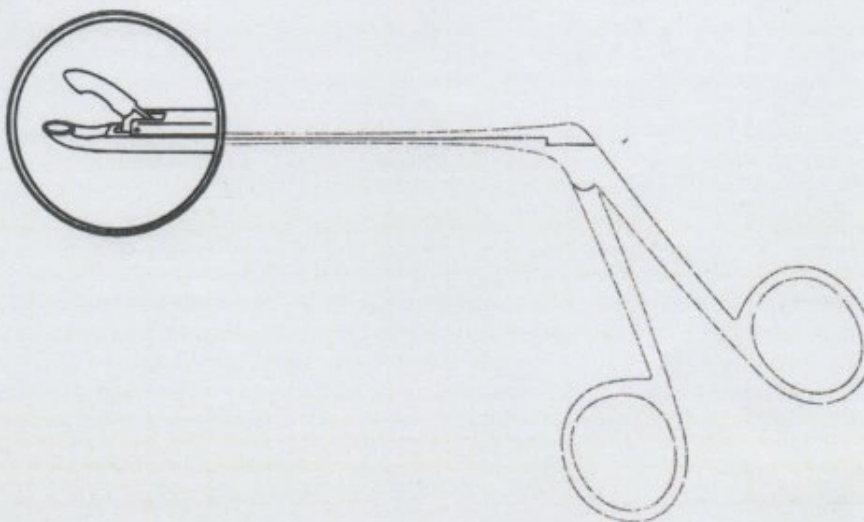

Shea Very Fine Vertical Action

Very Fine Straight Oval Cup Forceps 4mm	022
Very Fine Curved Left Oval Cup Forceps 4mm	023
Very Fine Curved Right Oval Cup Forceps 4mm	024

Shea Very Fine Horizontal Action

Very Fine Opening Left Oval Cup Forceps 4mm	025
Very Fine Opening Right Oval Cup Forceps 4mm	026
Very Fine Opening Left CVD Up Oval Cup Forceps 4mm	027
Very Fine Opening Right CVD Up Oval Cup Forceps 4mm	028
Very Fine Opening Left CVD Down Oval Cup Forceps 4mm	029
Very Fine Opening Right CVD Down Oval Cup Forceps 4mm	030

We use only the finest materials available, quality certified medical grade stainless steel and titanium, conforming to British Standard specification. Instruments are completed in satin, polished or ebony finish, which provides a non-reflective matt finish. All our instruments are thoroughly checked before delivery, to ensure they are free from defects in workmanship and material.

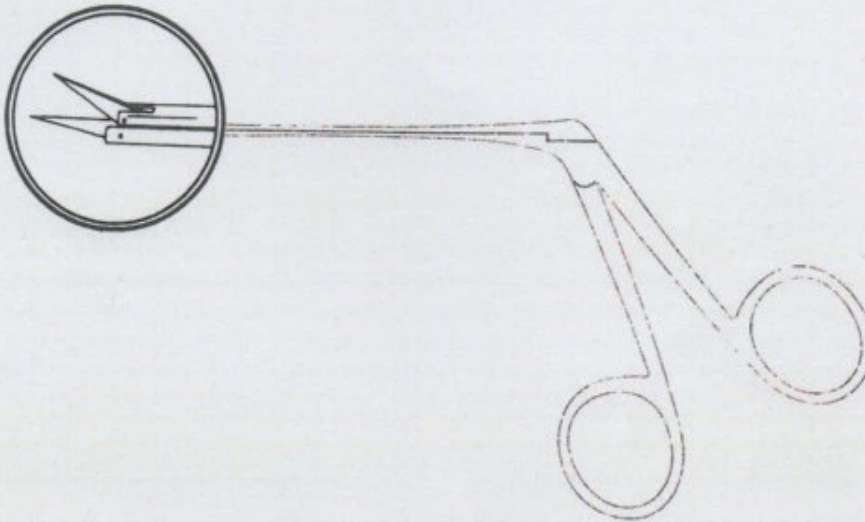

Ormerod Very Fine Vertical Action

Very Fine Straight Round Cup Forceps 4mm	031
Very Fine Curved Left Round Cup Forceps 4mm	032
Very Fine Curved Right Round Cup Forceps 4mm	033

Ormerod Very Fine Horizontal Action

Very Fine Opening Left Round Cup Forceps 4mm	034
Very Fine Opening Right Round Cup Forceps 4mm	035
Very Fine Opening Left CVD Up Round Cup Forceps 4mm	036
Very Fine Opening Right CVD Up Round Cup Forceps 4mm	037
Very Fine Opening Left CVD Down Round Cup Forceps 4mm	038
Very Fine Opening Right CVD Down Round Cup Forceps 4mm	039

We use only the finest materials available, quality certified medical grade stainless steel and titanium, conforming to British Standard specification. Instruments are completed in satin, polished or ebony finish, which provides a non-reflective matt finish. All our instruments are thoroughly checked before delivery, to ensure they are free from defects in workmanship and material.

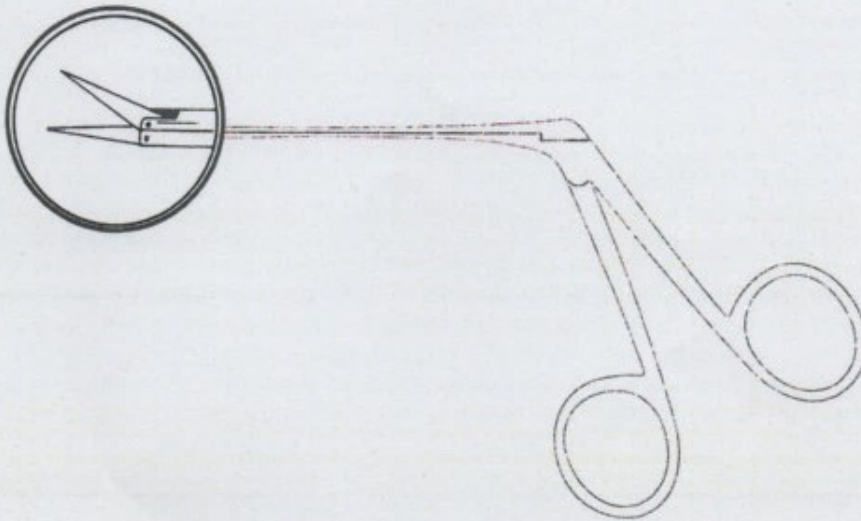

Cawthorne Very Fine Vertical Action

Very Fine Straight Scissor Forceps 4mm	040
Very Fine Curved Left Scissor Forceps 4mm	041
Very Fine Curved Right Scissor Forceps 4mm	042

Cawthorne Very Fine Horizontal Action

Very Fine Opening Left Scissor Forceps 4mm	043
Very Fine Opening Right Scissor Forceps 4mm	044
Very Fine Opening Left CVD Up Scissor Forceps 4mm	045
Very Fine Opening Right CVD Up Scissor Forceps 4mm	046
Very Fine Opening Left CVD Down Scissor Forceps 4mm	047
Very Fine Opening Right CVD Down Scissor Forceps 4mm	048

We use only the finest materials available, quality certified medical grade stainless steel and titanium, conforming to British Standard specification. Instruments are completed in satin, polished or ebony finish, which provides a non-reflective matt finish. All our instruments are thoroughly checked before delivery, to ensure they are free from defects in workmanship and material.

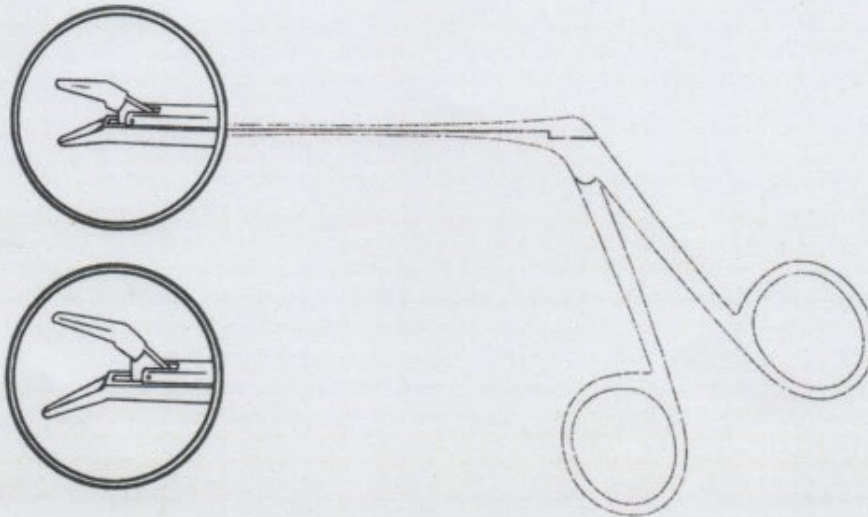

Shea Belluci Very Fine Vertical Action

Very Fine Straight Scissor Forceps 8mm	049
Very Fine Curved Left Scissor Forceps 8mm	050
Very Fine Curved Right Scissor Forceps 8mm	051

Shea Belluci Very Fine Horizontal Action

Very Fine Opening Left Scissor Forceps 8mm	052
Very Fine Opening Right Scissor Forceps 8mm	053
Very Fine Opening Left CVD Up Scissor Forceps 8mm	054
Very Fine Opening Right CVD Up Scissor Forceps 8mm	055
Very Fine Opening Left CVD Down Scissor Forceps 8mm	056
Very Fine Opening Right CVD Down Scissor Forceps 8mm	057

We use only the finest materials available, quality certified medical grade stainless steel and titanium, conforming to British Standard specification. Instruments are completed in satin, polished or ebony finish, which provides a non-reflective matt finish. All our instruments are thoroughly checked before delivery, to ensure they are free from defects in workmanship and material.

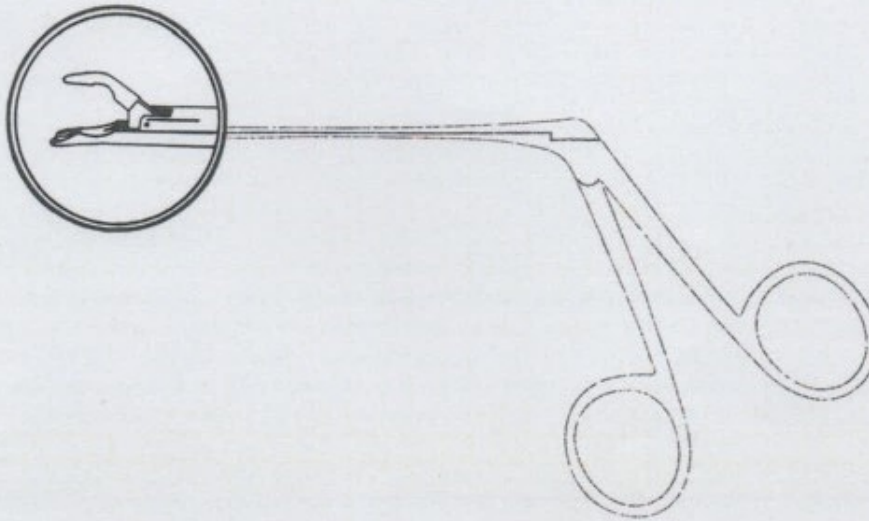

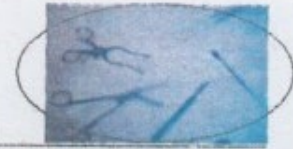

McGee Wire Crimping Vertical Action

McGee Wire Crimping Forceps 4mm	056
McGee Wire Crimping Forceps 8mm	057

McGee Wire Crimping Horizontal Action

McGee Wire Crimping Opening Left Forceps 4mm	058
McGee Wire Crimping Opening Right Forceps 4mm	059
McGee Wire Crimping Opening Left Forceps 8mm	060
McGee Wire Crimping Opening Right Forceps 8mm	061

We use only the finest materials available, quality certified medical grade stainless steel and titanium, conforming to British Standard specification. Instruments are completed in satin, polished or ebony finish, which provides a non-reflective matt finish. All our instruments are thoroughly checked before delivery, to ensure they are free from defects in workmanship and material.

Wire Crimping Vertical Action

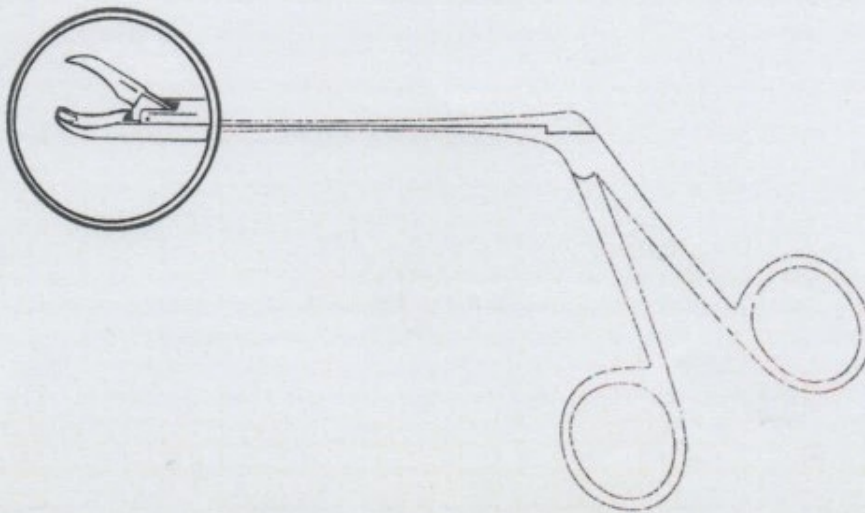

Wire Crimping Forceps 4mm 062

Wire Crimping Horizontal Action

Wire Crimping Opening Left Forceps 4mm 063

Wire Crimping Opening Right Forceps 4mm 064

We use only the finest materials available, quality certified medical grade stainless steel and titanium, conforming to British Standard specification. Instruments are completed in satin, polished or ebony finish, which provides a non-reflective matt finish. All our instruments are thoroughly checked before delivery, to ensure they are free from defects in workmanship and material.

Tabb Crura Nipper Vertical Action

Tabb Crura Nipper Forceps 4mm

065

Tabb Crura Nipper Horizontal Action

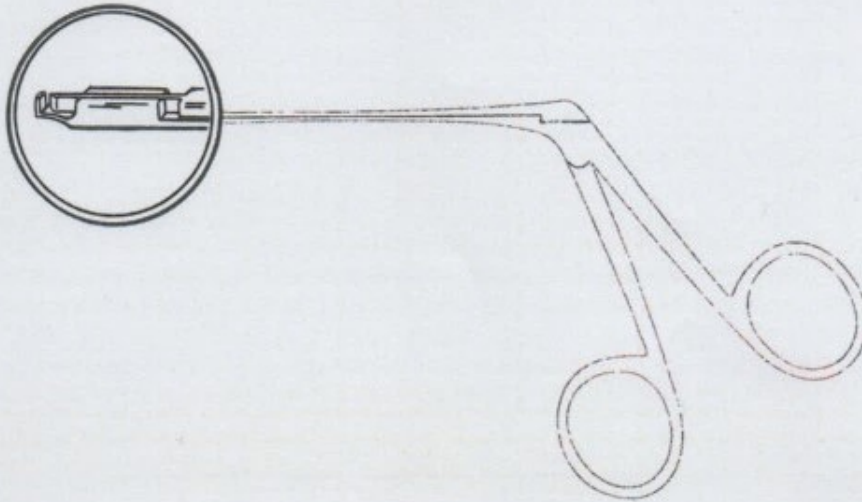

Tabb Crura Nipper Opening Left Forceps 4mm

066

Tabb Crura Nipper Opening Right Forceps 4mm

067

We use only the finest materials available, quality certified medical grade stainless steel and titanium, conforming to British Standard specification. Instruments are completed in satin, polished or ebony finish, which provides a non-reflective matt finish. All our instruments are thoroughly checked before delivery, to ensure they are free from defects in workmanship and material.

Malleus Nipper Vertical Action

Malleus Nipper Forceps

068

Malleus Nipper Horizontal Action

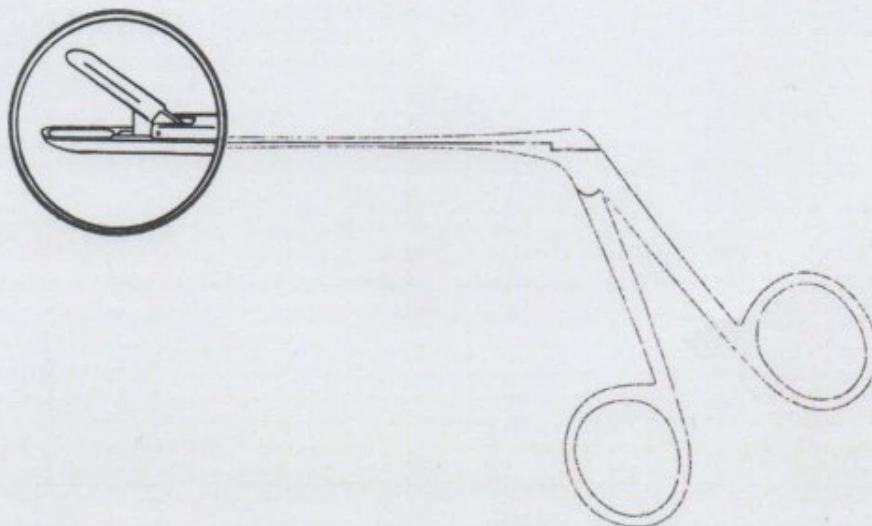

Malleus Nipper Opening Left Forceps

069

Malleus Nipper Opening Right Forceps

070

We use only the finest materials available, quality certified medical grade stainless steel and titanium, conforming to British Standard specification. Instruments are completed in satin, polished or ebony finish, which provides a non-reflective matt finish. All our instruments are thoroughly checked before delivery, to ensure they are free from defects in workmanship and material.

Ormerod Elongated Cup Vertical Action

Ormerod Elongated Cup Forceps 5mm

071

Ormerod Elongated Cup Horizontal Action

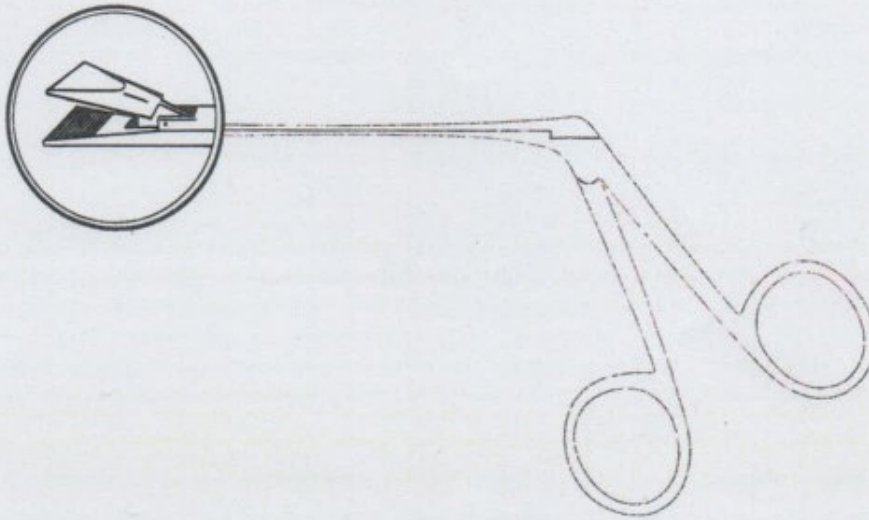

Ormerod Elongated Cup Opening Left Forceps 5mm

072

Ormerod Elongated Cup Opening Right Forceps 5mm

073

We use only the finest materials available, quality certified medical grade stainless steel and titanium, conforming to British Standard specification. Instruments are completed in satin, polished or ebony finish, which provides a non-reflective matt finish. All our instruments are thoroughly checked before delivery, to ensure they are free from defects in workmanship and material.

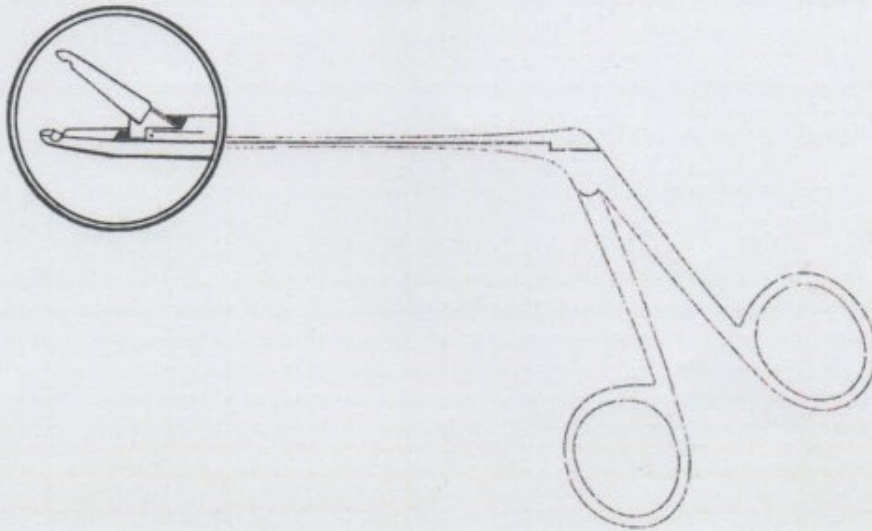

Triangular Jaw Vertical Action

Triangular Jaw Forceps 4.5mm Long 2.25mm Wide At Tip

074

We use only the finest materials available, quality certified medical grade stainless steel and titanium, conforming to British Standard specification. Instruments are completed in satin, polished or ebony finish, which provides a non-reflective matt finish. All our instruments are thoroughly checked before delivery, to ensure they are free from defects in workmanship and material.

Teflon Piston Forceps Vertical Action

Teflon Piston Introducing Forceps

075

Teflon Piston Forceps Horizontal Action

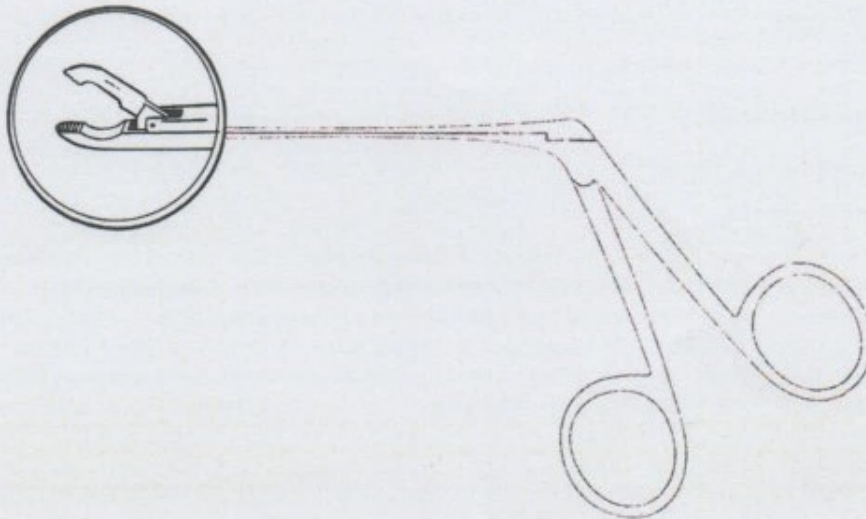

Teflon Piston Holding Opening Left Forceps

076

Teflon Piston Holding Opening Right Forceps

077

We use only the finest materials available, quality certified medical grade stainless steel and titanium, conforming to British Standard specification. Instruments are completed in satin, polished or ebony finish, which provides a non-reflective matt finish. All our instruments are thoroughly checked before delivery, to ensure they are free from defects in workmanship and material.

Stride Wire Closing Vertical Action

Stride Wire Closing Forceps 4mm

078

Stride Wire Closing Horizontal Action

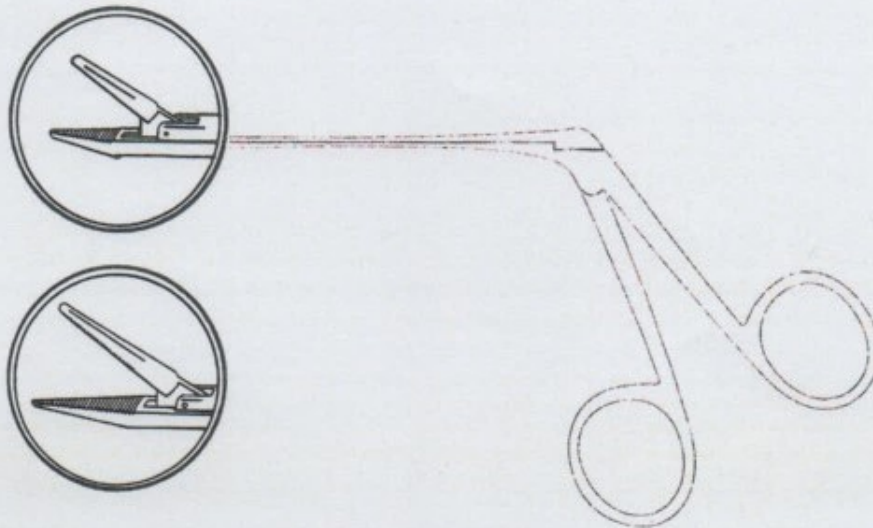

Stride Wire Closing Opening Left Forceps 4mm

079

Stride Wire Closing Opening Right Forceps 4mm

080

We use only the finest materials available, quality certified medical grade stainless steel and titanium, conforming to British Standard specification. Instruments are completed in satin, polished or ebony finish, which provides a non-reflective matt finish. All our instruments are thoroughly checked before delivery, to ensure they are free from defects in workmanship and material.

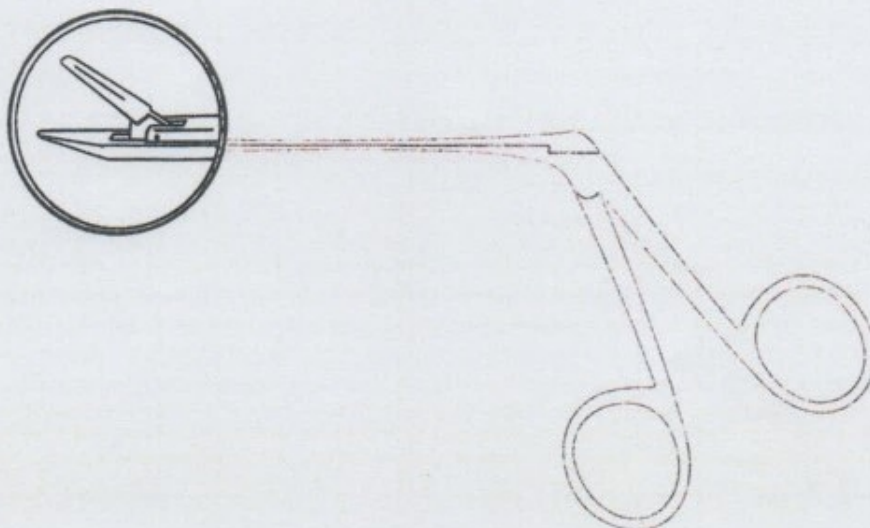

Hartman Extra Fine Vertical Action

Extra Fine Straight Serrated Jaw Forceps 3mm	201
Extra Fine Curved Left Serrated Jaw Forceps 3mm	202
Extra Fine Curved Right Serrated Jaw Forceps 3mm	203

Hartman Extra Fine Horizontal Action

Extra Fine Opening Left Serrated Jaw Forceps 3mm	205
Extra Fine Opening Right Serrated Jaw Forceps 3mm	206
Extra Fine Opening Left CVD Up Serrated Jaw Forceps 3mm	207
Extra Fine Opening Right CVD Up Serrated Jaw Forceps 3mm	208
Extra Fine Opening Left CVD Down Serrated Jaw Forceps 3mm	209
Extra Fine Opening Right CVD Down Serrated Jaw Forceps 3mm	210

We use only the finest materials available, quality certified medical grade stainless steel and titanium, conforming to British Standard specification. Instruments are completed in satin, polished or ebony finish, which provides a non-reflective matt finish. All our instruments are thoroughly checked before delivery, to ensure they are free from defects in workmanship and material.

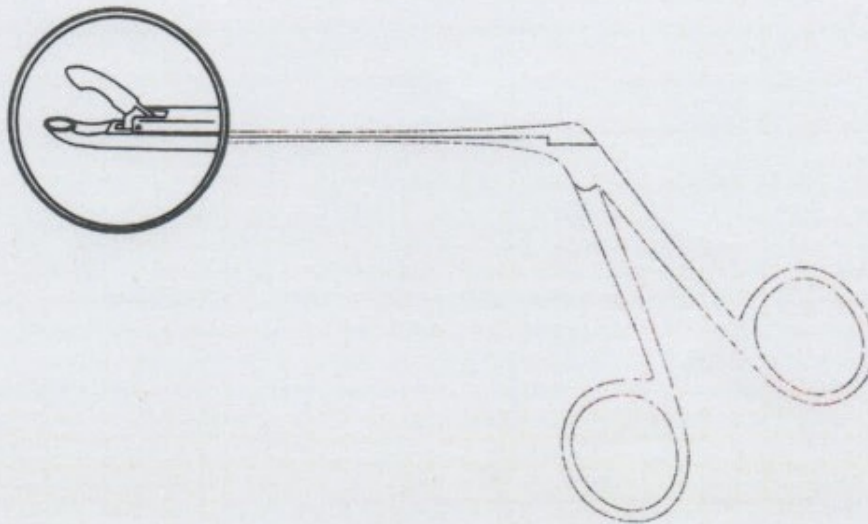

Cawthorne Extra Fine Vertical Action

Extra Fine Straight Smooth Jaw Forceps 3mm	213
Extra Fine Curved Left Smooth Jaw Forceps 3mm	214
Extra Fine Curved Right Smooth Jaw Forceps 3mm	215

Cawthorne Extra Fine Horizontal Action

Extra Fine Opening Left Smooth Jaw Forceps 3mm	216
Extra Fine Opening Right Smooth Jaw Forceps 3mm	217
Extra Fine Opening Left CVD Up Smooth Jaw Forceps 3mm	218
Extra Fine Opening Right CVD Up Smooth Jaw Forceps 3mm	219
Extra Fine Opening Left CVD Down Smooth Jaw Forceps 3mm	220
Extra Fine Opening Right CVD Down Smooth Jaw Forceps 3mm	221

We use only the finest materials available, quality certified medical grade stainless steel and titanium, conforming to British Standard specification. Instruments are completed in satin, polished or ebony finish, which provides a non-reflective matt finish. All our instruments are thoroughly checked before delivery, to ensure they are free from defects in workmanship and material.

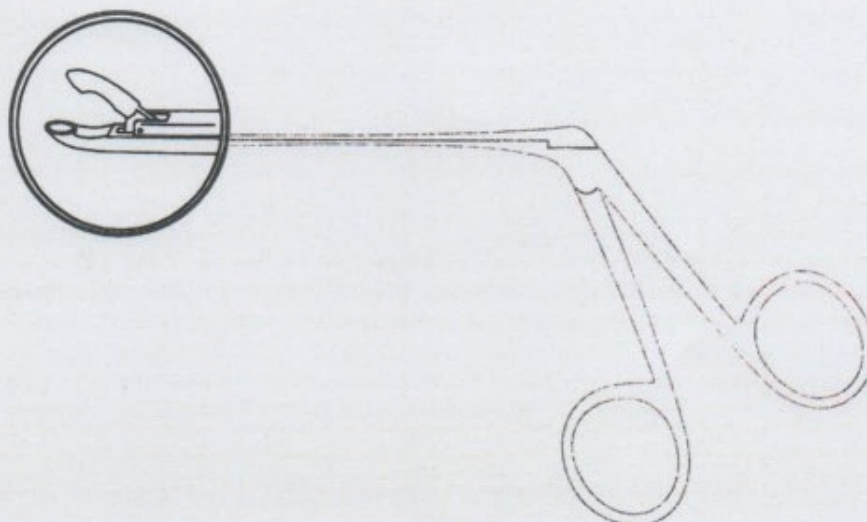

Shea Extra Fine Vertical Action

Extra Fine Straight Oval Cup Forceps 3mm	222
Extra Fine Curved Left Oval Cup Forceps 3mm	223
Extra Fine Curved Right Oval Cup Forceps 3mm	224

Shea Extra Fine Horizontal Action

Extra Fine Opening Left Oval Cup Forceps 3mm	225
Extra Fine Opening Right Oval Cup Forceps 3mm	226
Extra Fine Opening Left CVD Up Oval Cup Forceps 3mm	227
Extra Fine Opening Right CVD Up Oval Cup Forceps 3mm	228
Extra Fine Opening Left CVD Down Oval Cup Forceps 3mm	229
Extra Fine Opening Right CVD Down Oval Cup Forceps 3mm	230

We use only the finest materials available, quality certified medical grade stainless steel and titanium, conforming to British Standard specification. Instruments are completed in satin, polished or ebony finish, which provides a non-reflective matt finish. All our instruments are thoroughly checked before delivery, to ensure they are free from defects in workmanship and material.

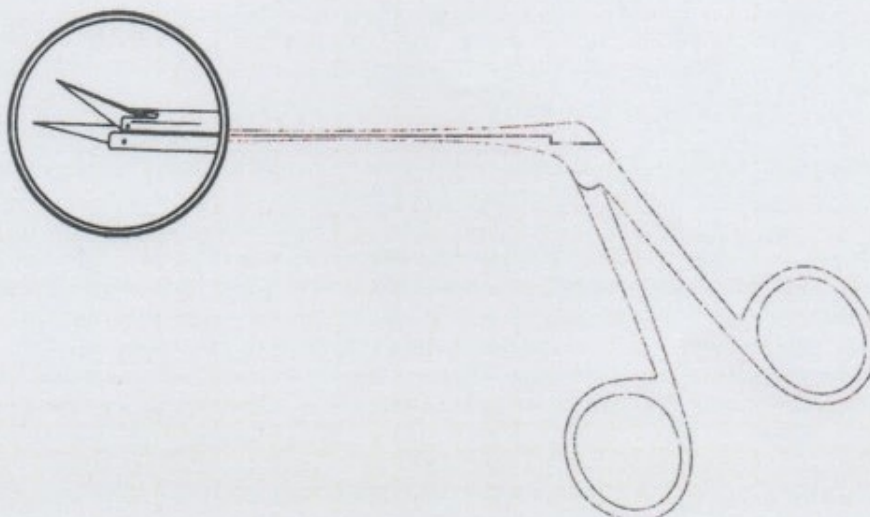

Ormerod Extra Fine Vertical Action

Extra Fine Curved Left Round Cup Forceps 3mm	232
Extra Fine Curved Right Round Cup Forceps 3mm	233

Ormerod Extra Fine Horizontal Action

Extra Fine Opening Left Round Cup Forceps 3mm	234
Extra Fine Opening Right Round Cup Forceps 3mm	235
Extra Fine Opening Left CVD Up Round Cup Forceps 3mm	236
Extra Fine Opening Right CVD Up Round Cup Forceps 3mm	237
Extra Fine Opening Left CVD Down Round Cup Forceps 3mm	238
Extra Fine Opening Right CVD Down Round Cup Forceps 3mm	239

We use only the finest materials available, quality certified medical grade stainless steel and titanium, conforming to British Standard specification. Instruments are completed in satin, polished or ebony finish, which provides a non-reflective matt finish. All our instruments are thoroughly checked before delivery, to ensure they are free from defects in workmanship and material.

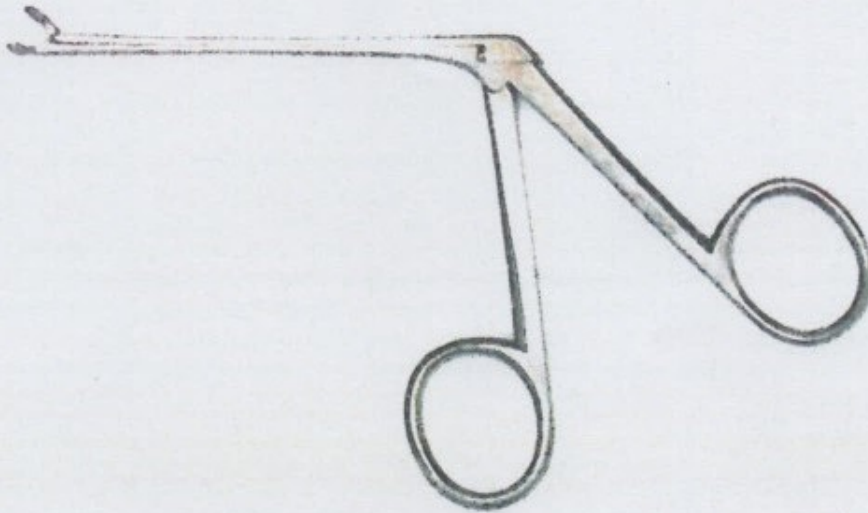

Cawthorne Extra Fine Vertical Action

Extra Fine Straight Scissor Forceps 3mm	240
Extra Fine Curved Left Scissor Forceps 3mm	241
Extra Fine Curved Right Scissor Forceps 3mm	242

Cawthorne Extra Fine Horizontal Action

Extra Fine Opening Left Scissor Forceps 3mm	243
Extra Fine Opening Right Scissor Forceps 3mm	244
Extra Fine Opening Left CVD Up Scissor Forceps 3mm	245
Extra Fine Opening Right CVD Up Scissor Forceps 3mm	246
Extra Fine Opening Left CVD Down Scissor Forceps 3mm	247
Extra Fine Opening Right CVD Down Scissor Forceps 3mm	248

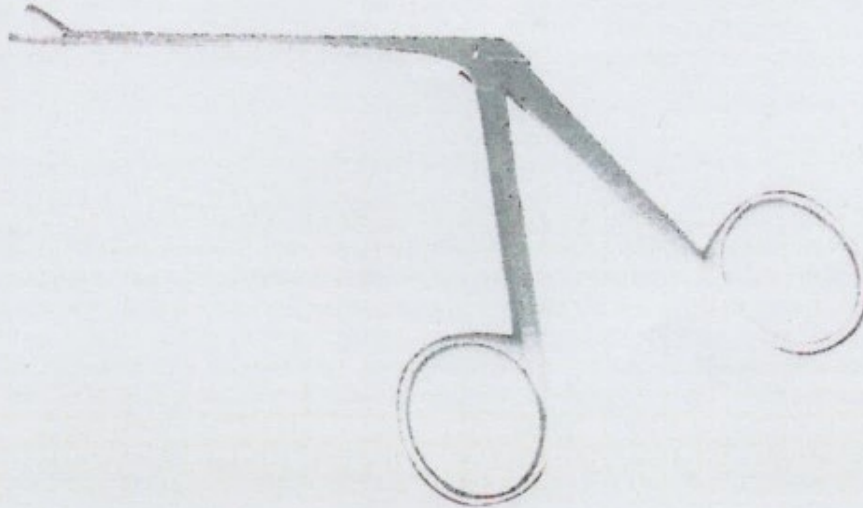

We use only the finest materials available, quality certified medical grade stainless steel and titanium, conforming to British Standard specification. Instruments are completed in satin, polished or ebony finish, which provides a non-reflective matt finish. All our instruments are thoroughly checked before delivery, to ensure they are free from defects in workmanship and material.

Hartmann Round Cup Vertical Action

Heavy Straight Round Cup Forceps 2mm	300
Heavy Straight Round Cup Forceps 2.5mm	301
Heavy Straight Round Cup Forceps 3mm	302

We use only the finest materials available, quality certified medical grade stainless steel and titanium, conforming to British Standard specification. Instruments are completed in satin, polished or ebony finish, which provides a non-reflective matt finish. All our instruments are thoroughly checked before delivery, to ensure they are free from defects in workmanship and material.

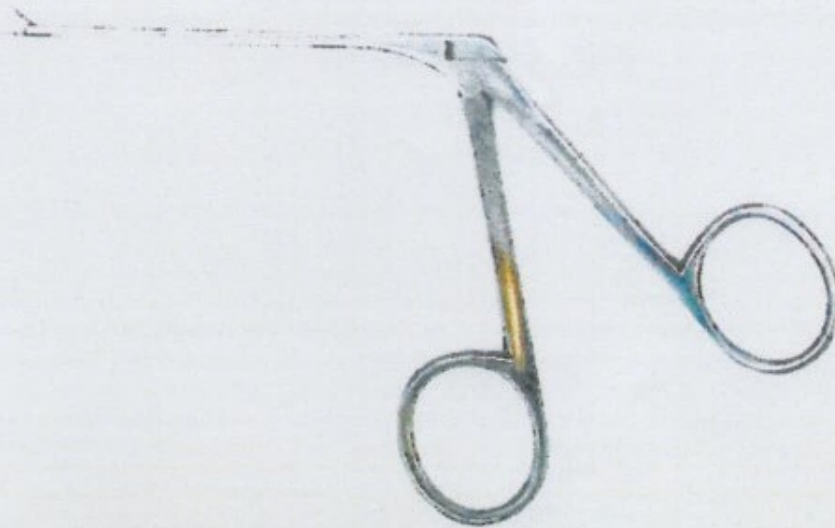

Hartmann Tenaculum Vertical Action

Heavy Straight 1 into 2 Teeth

303

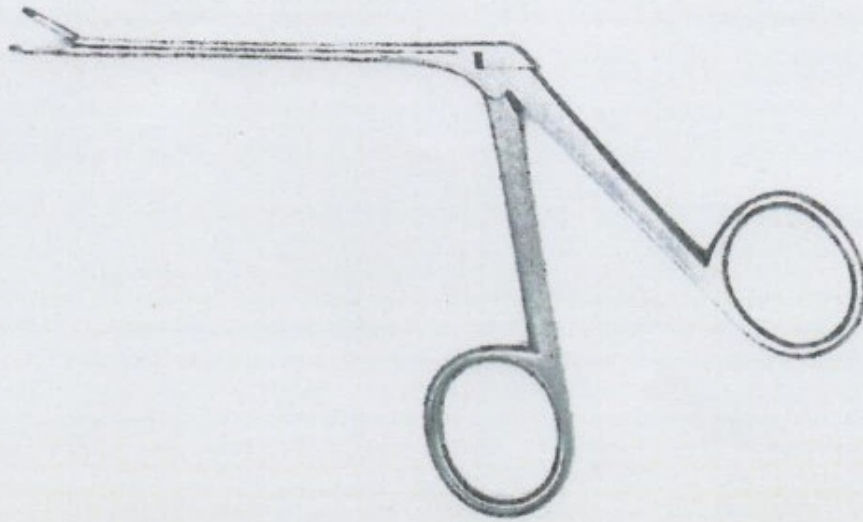

We use only the finest materials available, quality certified medical grade stainless steel and titanium, conforming to British Standard specification. Instruments are completed in satin, polished or ebony finish, which provides a non-reflective matt finish. All our instruments are thoroughly checked before delivery, to ensure they are free from defects in workmanship and material.

Hartmann Serrated Vertical Action

Heavy Straight Serrated Forceps 7mm	304
Heavy Curved Left Serrated Forceps 7mm	305
Heavy Curved Right Serrated Forceps 7mm	306
Heavy Straight Serrated Forceps 10mm	307
Heavy Curved Left Serrated Forceps 10mm	308
Heavy Curved Right Serrated Forceps 10mm	309

We use only the finest materials available, quality certified medical grade stainless steel and titanium, conforming to British Standard specification. Instruments are completed in satin, polished or ebony finish, which provides a non-reflective matt finish. All our instruments are thoroughly checked before delivery, to ensure they are free from defects in workmanship and material.

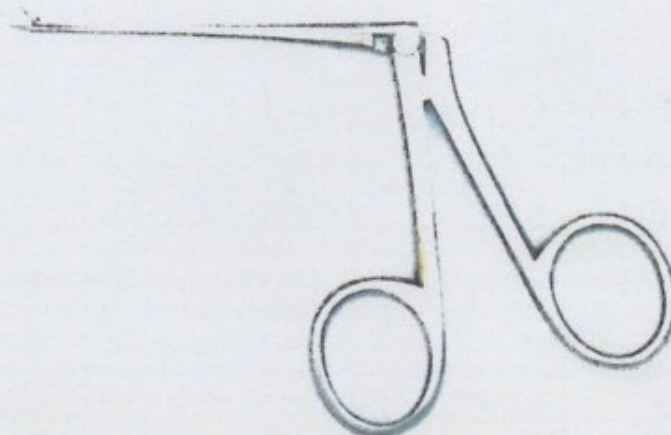

Henckel Fenestrated Scoop Vertical Action

Straight Fenestrated Scoop Forceps 10mm x 3mm

310

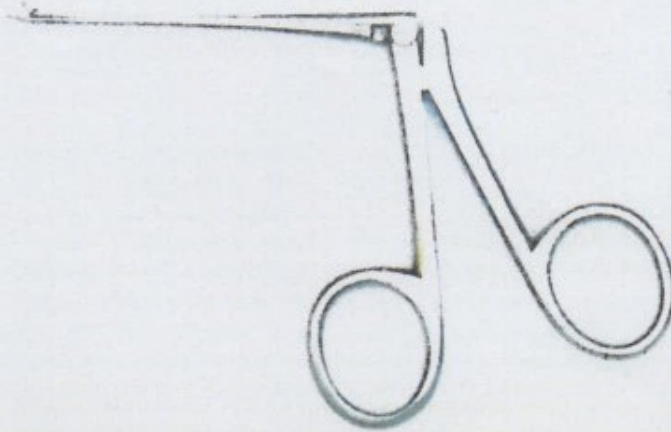

We use only the finest materials available, quality certified medical grade stainless steel and titanium, conforming to British Standard specification. Instruments are completed in satin, polished or ebony finish, which provides a non-reflective matt finish. All our instruments are thoroughly checked before delivery, to ensure they are free from defects in workmanship and material.

Angell James Aural Vertical Action

Aural Straight Serrated Forceps 4mm	311
Aural Curved Left Serrated Forceps 4mm	312
Aural Curved Right Serrated Forceps 4mm	313
